

MEHRDAD MORADI

SENIOR PRODUCT MANAGER

+98 921 279 5139 | mehrdad.moradi@hotmail.com | Tehran, Iran | LinkedIn

SUMMARY

Results-driven Senior Product Manager with 11+ years across tech and gaming, working at the intersection of user needs, business goals, and technical constraints to ship high-impact products. Goes beyond executing tasks — analyzes and prioritizes problems, drives Discovery, defines solutions, and owns outcomes end-to-end through data-, research-, and user-driven decisions. A hands-on foundation in C#, Unity, and ASP.NET Core keeps engineering, design, and business aligned and product quality followed through to implementation.

SKILLS

Product Management: Product Strategy, Product Discovery & Delivery, Product Lifecycle (End-to-End), MVP Definition, Roadmap Planning, Feature Prioritization, User Research & Insights, Competitor Analysis.

Methodologies & Tools: Agile, Scrum, Lean, Backlog Grooming, Sprint Planning, User Stories & Requirements, Jira (Advanced), Confluence, Azure DevOps, Kanban.

Technical & Product Design: C#, Unity, ASP.NET Core, T-SQL, Data-Driven UI/UX, Web3/Blockchain (Solana, Polygon), XR/AR/VR.

Soft Skills: Cross-functional Leadership, Stakeholder Management, Data-Driven Decision Making, Problem-Solving, Effective Communication.

EXPERIENCE

Honeyland

June 2022 – September 2025

Product Manager / Developer

Player-first Web3/Web2 gaming ecosystem focused on multiplayer experiences and user engagement.

- **Product Ownership:** Promoted from Senior Developer to Product Manager; owned the feature roadmap, backlog prioritization, and cross-functional alignment.
- **Feature Lifecycle:** Drove multiplayer capabilities end-to-end, balancing monetization goals with technical feasibility (ASP.NET Core / Nakama).
- **UX & Monetization:** Led discovery and delivery of a Web3 NFT marketplace and Solana/Polygon features, improving onboarding and expanding monetization.
- **Delivery:** Owned product strategy for a mobile title for MCI (Hamrah Aval) with 100,000+ active players, optimizing retention.
- **Cross-platform:** Optimized Android/iOS UX/UI with engineering against performance metrics to reduce user friction.

Freelance

June 2020 – July 2022

Product Manager / Developer

Independent product management for diverse digital products, platforms, and interactive experiences.

- **End-to-End Delivery:** Took multiple concurrent products from discovery, market sizing, and MVP definition to launch.
- **Stakeholder & Requirements:** Turned business goals and client constraints into product requirements, user stories, and Jira workflows.
- **Cross-functional Collaboration:** Coordinated developers, UI/UX designers, and QA to bridge design and technical implementation.
- **Product Launch:** Shipped the Tarneeb mobile game from concept to store, analyzing post-launch user behavior.
- **Immersive Products:** Delivered a high-fidelity VR crane simulator for specialized B2B training markets.

Dreamdays Gift Experiences

July 2019 – April 2020

Product Manager / Developer

Dubai-based tourism-technology company specializing in AR-driven digital platforms and experiences.

- **AR Product Strategy:** Product Owner for an AR tourist-guide app, aligning the Unity + Flutter stack with digital-transformation goals.
- **UX Focus:** Supervised content workflows and asset pipelines for a cohesive hybrid mobile experience for international tourists.
- **Agile Delivery:** Implemented Scrum to streamline delivery with a continuous feedback loop between tech and content teams.
- **ROI & Budget:** Monitored development spend and resource allocation to maximize ROI under strict quality standards.

Vimoand

April 2018 – May 2019

Developer

EdTech company specializing in immersive training software and XR/HoloLens enterprise applications.

- Owned product backlogs, release planning, and sprint goals for immersive B2B enterprise software.
- Aligned 3D artists, UX designers, and engineering teams to resolve complex usability challenges.
- Streamlined roadmap execution, achieving a 30% reduction in time-to-market for software updates.
- Led UAT and QA to validate simulation features against strict educational and training requirements.

Haftsang

April 2014 – April 2018

Developer

Independent digital studio focused on cross-platform entertainment software and engaging core mechanics.

- Designed and launched 3 multi-platform titles; built in-app analytics for actionable user-behavior insights.
- Iterated on core loops using quantitative data and player feedback, improving long-term retention and engagement.
- Mentored team members on clean architecture and best practices to minimize technical debt.

EDUCATION

Associate's Degree in Technical Direction of Computer Games Iran Computer and Video Games Foundation, Iran

2013
